A-Design & Properties is a small company offering management services for real estate properties on the residential market and Engineering services on M/E/P design documentation.

Management: the company caters on private and/or investment residential property for which the owner is unable or unavailable to manage on its own. Collection of rent, deposit of funds, monitoring of property and arrangements for minor repairs and maintenance are a sample of the services offered. Ideal for people relocated out of State (or to Greece) while they like to keep their home or investments in the USA. Management includes the option of listing the property for Sale or Rent at Owners request.

Contact: Barbara Skardis, Broker – www.bskardis.com

Engineering: the company offers engineering services for mechanical, Plumbing and Electrical design for residential and/or commercial projects in the Washington metropolitan area.
