AHEPA...

86 Years of Maintaining An Ethnic Identity

The American Hellenic Educational Progressive Association (AHEPA) is by far the largest Greek-American organization. Its scope is international - with chapters in the United States, Canada, Australia and Greece. AHEPA was founded on July 26, 1922, in Atlanta, Georgia, by visionary Americans of Hellenic descent and application for membership is open to everyone who believes in the mission of the organization.

The mission of the AHEPA Family is to promote Hellenism, Education, Philanthropy, Civic Responsibility, as well as Family and Individual Excellence. AHEPA feels part of its mission is to create an awareness of the principles of Hellenism to individuals outside the Greek-American Community. Hellenism and its ideals should be experienced by everyone for generations to come.

AHEPA is unique in that it heads a "family" of four auxiliaries that work together to teach respect and cooperation. They include:

DAUGHTERS OF PENELOPE:

The senior women's affiliate

MAIDS OF ATHENA:

The young women's auxiliary

SONS OF PERICLES:

The young men's auxiliary
